

¡Hola! Are you fluent in Python, PHP or Java?

Join [internetnatives](#) for an **INTERNSHIP** in **SANTIAGO DE CHILE**, South America

Our small team of internet enthusiasts provides software, design and internet marketing services for language and travel websites. [internetnatives](#) is a division of Yalea AG, a European Web Travel Agency active in the study abroad language business. We are looking for talented Computer Science students or recent graduates who want to apply their skills on challenging projects during an internship of 4 to 12 months. At [internetnatives](#), we expect a lot from you. You will be in charge of your project from day one.

Requirements

Student or recent graduate in Computer Science or related engineering discipline
Excellent analytical and organizational skills
Good skills in Python or familiarity with at least one other Object-Oriented-Programming Language
Experience with JavaScript
Serious interest in latest website technologies
Strong concern for quality

Nice-to-have's

Experience with technically challenging websites
Knowledge of Browser Compatibility Issues
Experience with Django

Benefits

Financial benefits will depend on your skills and the length of internship.
We can provide further details after receiving your application and conducting a subsequent interview.

Other benefits

Challenging projects in a young company
Informal working environment
Centrally located workplace
Free Spanish course
Free meals
Multicultural environment
Administrative help (accommodation, flights, visa, etc.)

Start date: as soon as possible

(If you cannot start working in the coming five months, send us your CV anyways. We will consider it for future openings)

Your project: depends on your skills, length of internship and interests (Will be discussed during the interview)

Interested?

Please send your CV in English, Spanish, German or French to richard@yalea.com or contact us for more details: [+41 848 225 225](tel:+41848225225)

Testimonials

« I gained valuable practical experience during my internship in Santiago, improved my Spanish and met new friends. A bit more than a year after returning home, I travelled to Chile again to meet up with them and explore this beautiful country »

Marko, Computer Science student ETH Zurich, Intern in 2006

« The internship offered me insights into the daily business of an unconventional internet startup. A wonderful international team and a challenging project, combined with the special location, made this internship a great experience »

Roland, Computer Science student ETH Zurich, Intern in 2008
