Announcements/Reminders

4 June 2015
Due Next Week

(1) Perform-W4 Exercise - due by Tuesday 8:00pm

(2) Prepare-W5 Exercise - due by Wednesday 10:00pm
While-Loops worksheet

Please work on Parts 3 and 4 of the While Loops worksheet on your own.

We’ll finish it in class next week.

Remember to bring your worksheet with you!
Grades for PCRS Exercises on MarkUs

You can check here to see which marks have been posted on MarkUs so far:

http://www.cdf.toronto.edu/~csc108h/summer/marks.shtml

I’ll upload the grades of this week’s exercises by Monday.

If you have any concerns, please let me know.
Getting Help

Please take advantage of all the available help for this course:

http://www.cdf.toronto.edu/~csc108h/summer/gethelp.shtml

If you cannot use the debugger or have any questions about the course, please just drop by my office hours or the 108 drop-in centre!

It always helps if you can bring your work with you, so we can see what you’ve done so far!

If you cannot make it to these hours, please post on Piazza.
Write Down your Questions!

Please bring a list of 1 - 3 CSC108-related questions to class next week.

Write them in a small piece of paper anonymously. Make sure it’s legible.

For example, you could write down a topic you’re having trouble with or an example of something you don’t understand or a piece of code you wrote that doesn’t work.
Practice!

For example, go over all the str methods listed in the 2nd page of the “String Methods” worksheet (except those that mention the word list in their description) and try to type examples in the Python shell.

Can you guess what the returned value will be before you hit enter?

You can also come up with small problems and try to solve them on your own!
