Announcements

16 July 2015
Final Exam Conflicts etc.

You can find the Aug. Exam Schedule here:

http://www.artsci.utoronto.ca/current/exams/aug15

If you have a conflict you need to report this to the appropriate Registrar’s office as soon as possible and see what your options there.

Here are a few potentially useful links:

http://www.artsci.utoronto.ca/current/exams/conflicts

http://www.artsci.utoronto.ca/current/petitions/common#deferred
On Monday July 20th, the 108 Drop-In Centre will be staffed with a TA only 3-4pm. You can still use the space 4-5pm.

Also, the more generic CSC Help Centre has been temporarily moved to BA4261 from BA2230.

Thanks to the students who brought this to my attention!
Today’s Plan

Complete the random story example from last time.

Focus on Testing (2 worksheets)

(1) Generate test cases for some functions. Do this in groups of 2-3 people.

Once you are done we’ll give you buggy code versions so you can “run” your tests by tracing the code on paper.

(2) Unittests

Talk about the mysterious if __name__ == “__main__” => (We’ll do this next week)
Reminders

• Please work through the `story.py` code on your own.

  http://www.cdf.toronto.edu/~csc108h/summer/lectures/L5101/w9/story.py

• Finish the last testcase example from the ‘Choosing Test Cases’ worksheet.

• Please bring your `unittest` worksheet next week. We’ll finish page 2.

• If you have any questions/concerns about this course, please drop by my office hours or send me an email. And don’t forget to take advantage of all the available help hours for this course:

  • http://www.cdf.toronto.edu/~csc108h/summer/gethelp.shtml
